Animals

for museums, attractions,
& meaningful experiences

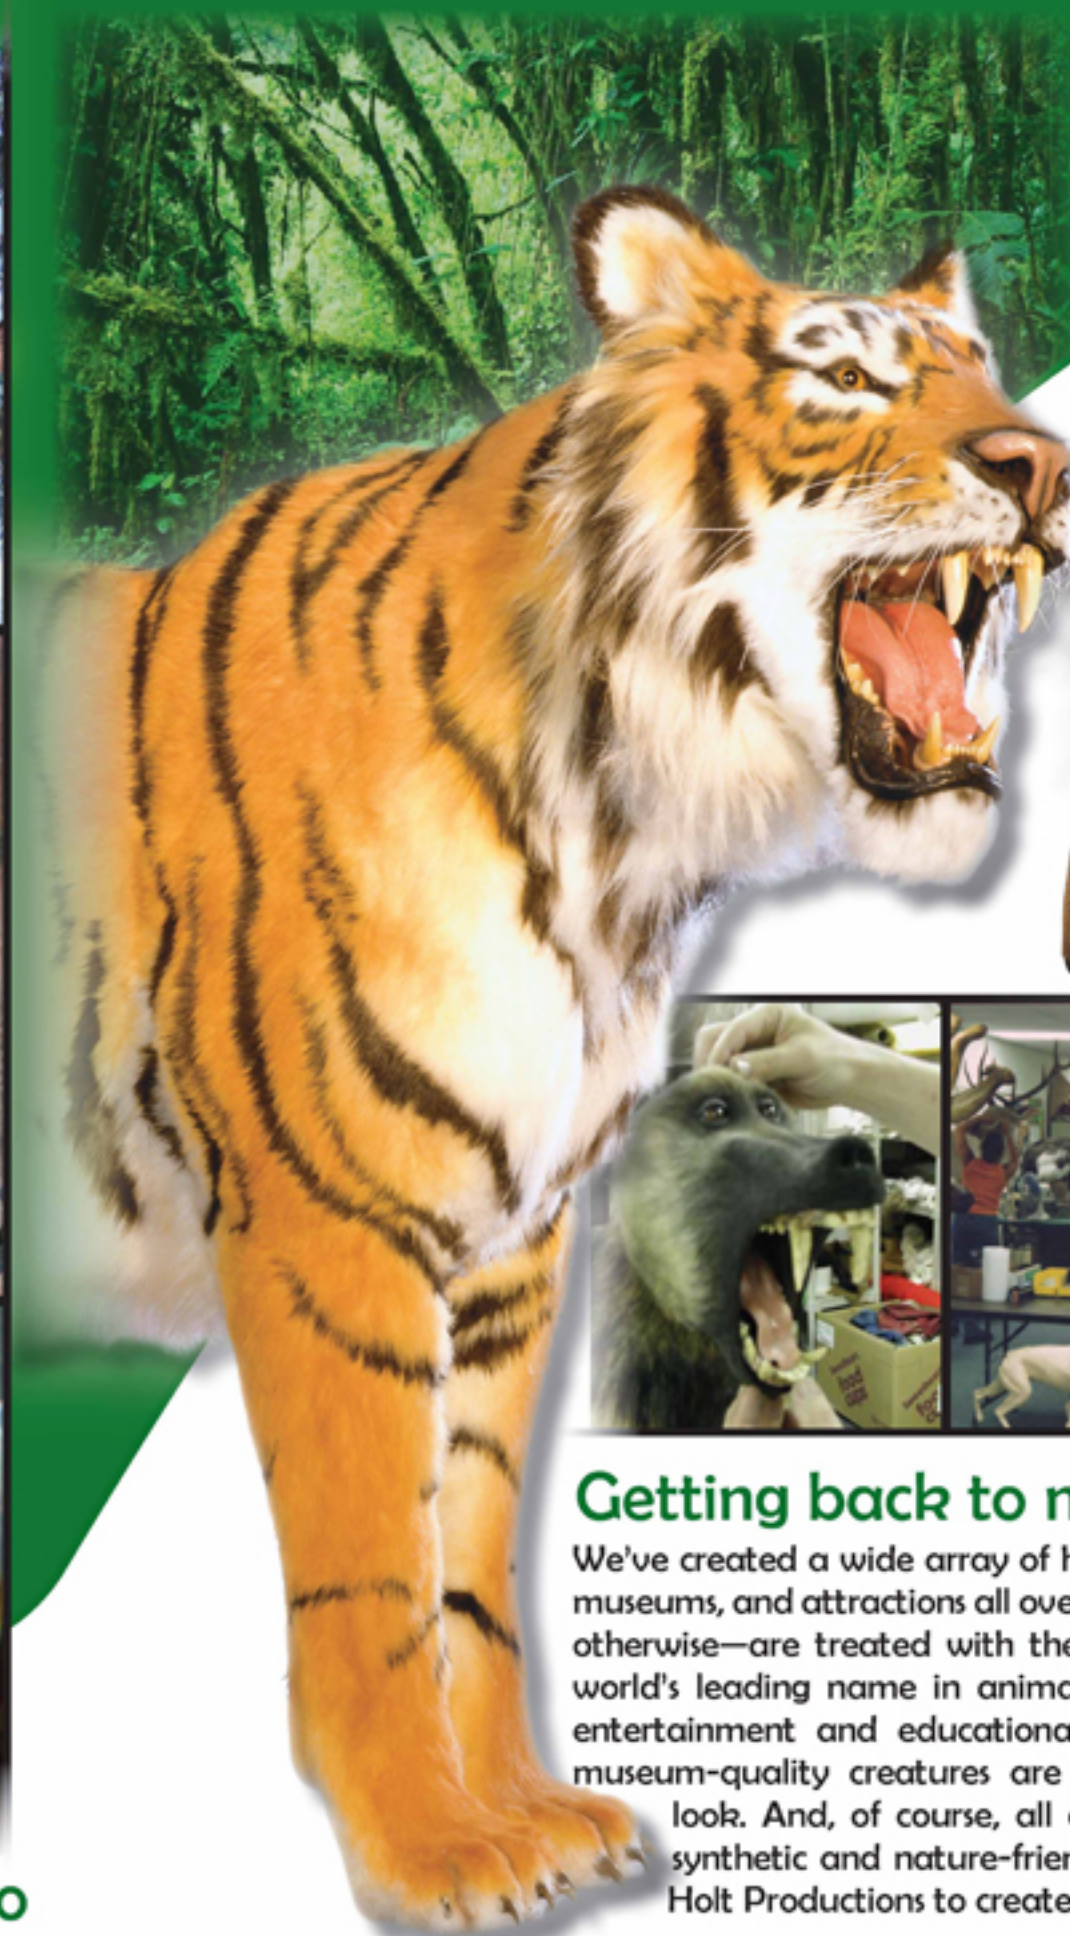

Garner Holt Productions, Inc. creates the finest animatronics, show action systems, interactive exhibits and special effects in the world today. Our technological savvy, exceptional artistry and attention to detail is apparent in everything we make. Whether your goal is to educate, entertain or inform, whether you need a single animated figure or a total immersive environment, you can be sure that we will meet your expectations.

From up in trees to under the sea...

From a single animal to a whole menagerie...

Getting back to nature?

We've created a wide array of hundreds of highly-realistic animals for theme parks, museums, and attractions all over the world. All types of animals—living or not, real or otherwise—are treated with the care and precision craftsmanship required of the world's leading name in animatronic and static figures, trusted by discriminating entertainment and educational organizations. Whether animated or static, our museum-quality creatures are so striking, even Mother Nature takes a second look. And, of course, all of the fur, teeth, eyes, claws, and skin are entirely synthetic and nature-friendly. So, whatever your need, you can trust Garner Holt Productions to create amazing animals that, walk, crawl, slither, or swim.
